Overview

Which FPMT user roles can “advertise” available space?	<ul style="list-style-type: none"> • Users must have the Facilities role and edit rights in order to advertise available space in FPMT.
What does it mean to “advertise” available space?	<ul style="list-style-type: none"> • Available space means a portion, or potentially all, of an obligated space is unneeded and could be used by another agency. • Agencies follow instructions for updating their data to reflect available space, which will then be included in FPMT’s available space report. • FPMT’s available space report can be reviewed by agencies looking to sublease space and potentially collocate with another agency.
How do I “advertise” available space in FPMT?	<ul style="list-style-type: none"> • Available space is reflected in the system by adding an additional space table to the leased or owned facility and selecting “yes” in the available space field. <ul style="list-style-type: none"> ○ This step is unnecessary if the entire space is deemed available. See instructions below for more detail. • Before adding a new space table, the existing space must be edited to reduce the square footage by the amount of square feet to be reported in the new available space. Failure to do so will result in a system error, as the combined square footage of all spaces cannot exceed the total square footage of the lease contract or owned facility.
Which FPMT user roles can access the available space report?	<ul style="list-style-type: none"> • All users can access the available space report.
Where do I access the available space report?	<ul style="list-style-type: none"> • The available space report can be run for each agency or for the entire enterprise. <ul style="list-style-type: none"> ○ The agency available space report is accessed from the agency tile. ○ The enterprise available space report is accessed from the State of Washington tile.

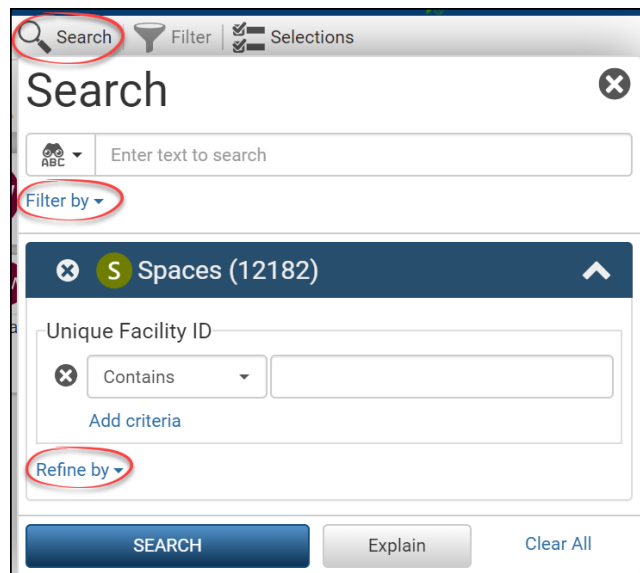

Advertise Available Space

Navigate to the existing space tile.

1. **Open** the Data Explorer module.

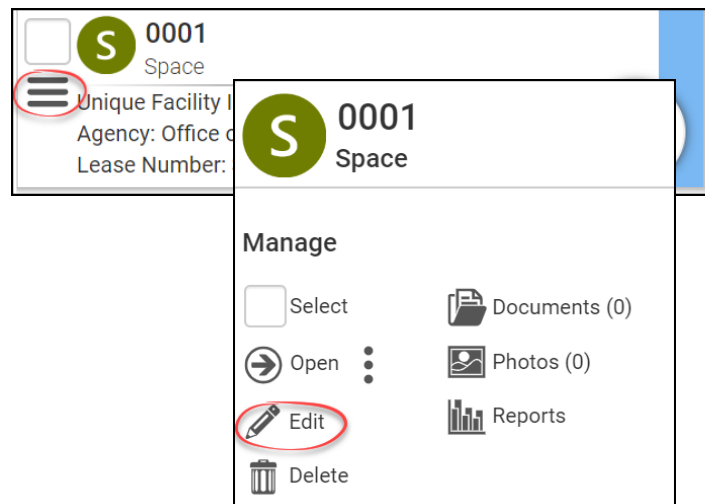

2. Select the  **Search** button on the data explorer tool bar.
3. Select **Filter by** and choose **Spaces**.
4. Select **Refine by** and choose **Unique Facility ID**.
5. Enter the UFI.
